

Always Leading - Always Innovating

Desktop & Handheld Scanners

Star Micronics offers IP-rated 1D/2D barcode scanners perfect for the healthcare industry that are compatible with any POS setup.

BSD-40U

This USB desktop scanner reads and parses a wide range of barcodes and IDs with exceptional motion tolerance and reliability.

BSH-20U

A durable, cost-effective USB handheld USB scanner ideal for inventory management and patient check-in.

BSH-32U

A premium handheld USB barcode scanner that offers high performance and durability for diverse settings, adeptly reading and parsing all barcode types.

BSH-32B

A high-performance wireless scanner with barcode parsing capability and extended battery life, ideal for untethered work in fast-paced environments.

Perfect for healthcare, all white scanner models are disinfectant-ready and washable without destroying the protective antimicrobial housing.

Self-Service Kiosk Printers

A leader in self-service printing, Star Micronics offers a robust line of kiosk printers designed for express check-in and patient information entry, including linerless label kiosk printers.

- **Increase Efficiency:** Kiosks reduce miscommunication and help with line-busting so your staff can focus on other initiatives
- **Easy to Integrate:** Star's kiosks are easily integrated to fit your specific needs
- **Connected:** Communicate via Serial, USB, Lightning, Ethernet, and Bluetooth
- **Multiple Profiles:** With flexible enclosure designs, Star's kiosks can be mounted vertically or horizontally
- **Kiosk Software Support:** Star supports a variety of web- and cloud-based apps and tablet-based SDKs, as well as Windows and Linux

Secure RX Printing

With a fast print speed, multiple built-in security features, and modern connectivity options, the Star Micronics TSP847IIRx secure printer offers prescription printing solutions for hospitals, pharmacies, medical offices, and urgent care centers.

- Disable paper feed function
- Available with Apple MFi certified Bluetooth interface
- Ultra-secure Kensington lock
- High speed: 37 prescriptions per minute (180mm/sec)
- Wide paper format: 4.4"
- Available with WebPRINT App

Compliant

Our TSP847IIRx includes tamper-resistant features for printing e-prescriptions and Centers for Medicare and Medicaid Service (CMS) prescriptions. Additionally, the printer is compliant with Federal Medicaid Regulations and certified for prescription printing in many states.

Secure

The TSP847IIRx works with specialized state-specific secure thermal prescription paper and utilizes Electronic Medical Records (EMR) software.

mUnite Stands

- Provides a stable surface for any Star printer or cashdrawer
- Space-saving design with clutter-free appeal
- Simple assembly, screws mounting kit
- Kiosk floor stand available for patient check-in
