

Star PassPRNT

"One-Tap" Printing from Mobile Devices

Enjoy Simple Mobile Printing with Star

Designed for mobile POS, Star Micronics PassPRNT is a printing application for iPad®, iPhone®, iPod Touch®, Android™, and Windows devices that is compatible with most Star printers. Depending on the tablet, nearly any interface printer can be used including Bluetooth, LAN, WLAN, USB, and Lightning. Always leading, and always innovating, Star's PassPRNT application receives print data from native and web-based applications using a URL scheme and sends it to the printer.

PassPRNT links with Star's POS and portable printers to enable printing using Star's unique URL scheme-based printing method and the PassPRNT companion application. Its easy-to-use integration allows developers to easily and quickly enable printing from any FileMaker Go™ project, native application, or web-based application.

With the operating system capable of automatically switching from the host application to the PassPRNT application, a simple and user-friendly "one-tap" request to print from any iPad®, iPhone®, iPod Touch®, or Android™ device to a Star printer is now possible. Star Micronics PassPRNT is now available on the Apple App Store, Google Play, and Windows App Store.

Product Highlights

- Enables Printing from iPad®, iPhone®, iPod Touch®, and Android™ and Windows Devices with Little Development
- Uses Star's Unique URL Scheme-Based Printing Method
- Available for Receipt, Label, and Kitchen Printer Models
- Automatically Switches from Host to PassPRNT App for "One-Tap" Printing

Available On:

TSP654II, TSP847II, TSP743II,
TSP143II, SM-T400i, SM-T300i, SM-S230i, SM-L200, mPOP™, mC-Print2,
mC-Print3

TSP847II

mC-Print3 and mC-Print2

HARDWARE FEATURES

- 3-inch Thermal Receipt Printer
- Ultra Fast: 60 RPM* (300mm/s)
- Horizontal & Vertical Use
- Drop-In & Print Paper Loading

- High-Speed Printing of 250mm/s
- Easy Set-Up Across All Models
- Guillotine Auto-Cutter
- 2 Color Printing Capability

- 3-inch Label/Ticket Printer
- Drop-In & Print Paper Loading
- Black Mark Label Support
- Jam-Free Cutter

- 4-inch Label/Ticket Printer
- Drop-In & Print Paper Loading
- Black Mark Label Support
- Jam-Free Cutter

- 3-inch/2-inch Thermal Printer
- Sleek, Compact, Connected
- Easy to Integrate Through Common SDK
- Front-Exit Printing

HARDWARE SPECIFICATIONS

Method: Direct Thermal
Paper Width: 80mm / 58mm
Paper Thickness: 0.053 - 0.085mm
Resolution: 203 dpi (8 dots/mm)
Speed: 60 RPM* (300mm/s)
