

TSP847IIRx

High-Speed, Secure Prescription Printer

The simple cure for hospitals and physicians looking to efficiently automate the prescription process.

Star's secure TSP847IIRx prescription printer enables doctors to print thermal prescriptions instead of handwriting them on a pad, helping avoid legibility errors. Utilizing specialized and secure thermal prescription paper, the prescriptions are printed using the latest electronic medical record (EMR) software in the industry, resulting in a secure legible script in seconds. No more messy ribbon replacements! The secured TSP847IIRx features simple and easy "Drop-In" secure thermal prescription paper, the sole consumable.

Available in serial, parallel, USB, Ethernet and Bluetooth interfaces, Star's TSP847IIRx is equipped for any medical facility. For those practitioners seeking a wireless solution, Star's TSP847IIRx BTi Bluetooth prescription printer is perfect for modern practices and hospitals utilizing tablets or mobile/portable wireless stations.

Apple MFi Certified, Star's TSP847IIRx BTi receipt printer is approved for use with iPod Touch®, iPhone® and iPad®. With operating system support for iOS, Android, and Windows, the TSP847IIRx BTi printer can additionally print receipts or data from a web browser-based application running on a mobile device wirelessly by configuring Star's WebPRNT Browser App. Once configured, simply pair your mobile device to the TSP847IIRx BTi and print from WebPRNT Browser.

Secured Locking TSP847IIRx

- **Locking** feature secures Rx paper roll from being taken from the printer without authorization
- Kensington lock slot

Features:

- Ultra-Fast 37 Prescriptions Per Minute (180mm/s)
- Locking Paper Chamber Deters Theft
- No Consumables Except Paper
- Quiet (55dB)
- No Warm-Up Time Needed
- Kensington Lock Slot for Locking Cable Harness
- "Drop-In and Print" Clamshell Design
- Compact Footprint: 7" x 8"
- Availability with Bluetooth Connectivity and WebPRNT Browser
