

mG-T Scales

THE mG-T SCALE LINE FOR RETAIL POS

Introducing Star's new line of mG-T point-of-sale scales, three NTEP and Measurement Canada-certified scales measuring weight with Class III accuracy. The mG-T series is effortless to set up, connecting to your point-of-sale (POS) system via Bluetooth or Serial connectivity. Integration is especially easy with Star SDK, and the mG-T series works with iOS, Android, and Windows.

Value-driven, these scales simplify the POS and enhance customer experience. They're great for the grocery industry, for produce, delis, salad bars, or for bulk sales of any kind, such as grains, nuts, dried fruit, candy, coffee or tea, and more. The mG-T series is also ideal for certain eCommerce applications or for the cannabis industry, whether for use during cultivation or for packaging larger quantities of flower by weight.

The mG-T series of POS scales offer a reliable, accurate, and easy-to-use solution for businesses in various industries, streamlining the POS process and increasing customer satisfaction.
